

PiMag[®] Ultra Shower System

Quick Reference Sheet

PiMag Ultra Shower System

Incorporates PiMag Water Technology

for a healthier shower experience,

leaving you with softer-feeling hair and smoother skin.

The Facts

- Half our daily exposure to chlorine occurs in the shower - absorbed via the skin and inhaled vapour that enters the blood stream.
- Chlorine is an oxidising agent that can combine with water to form hydrochloric acid and trihalomethanes, including chloroform.
- The PiMag Ultra Shower System effectively reduces chlorine exposure.
- Chlorine reduction systems in other shower products merely trap the chlorine in a filter or add other chemicals to counteract it. The PiMag Ultra Shower System's patented technology contains high purity copper - zinc alloy granules, that operate on the redox (oxidation / reduction) principle, an electron exchange that neutralises free chlorine.
- A Nikken exclusive, PiMag Water Technology uses ceramics to produce pi water 'the water of life'. Pi water was first discovered in a remote region of Japan, where scientists observed amazing results on the surrounding plants. Nikken technology uses special materials to replicate the environmental conditions that created pi water. PiMag water is also pH balanced to help offset the acidity often found in tap water.
- An additional filtration medium reduces iron, hydrogen sulphide, heavy metals, and micro-organisms without the use of chemicals.
- Nikken Magnetic Technology helps condition water without salt or other chemical additives. The 1200 gauss magnetic field assists in reducing aggregation (clumping) to reduce mineral build-up.
- The result is water that actually feels cleaner, for a shower that helps produce softer-feeling hair and smoother skin.

Features

- **Chlorine-reduction technology**
- **Combines neutralising system with filter element**
- **Pi ceramic material**
- **Magnetic technology**
- **High-strength, pressure tested housing**
- **Deluxe Showerhead with 'Pure Mist' technology**

Benefits

- Copper-zinc granules neutralise chlorine without adding chemicals to water
- More thorough filtration, helps filter last longer
- Reproduces the natural conditions that create pi water
- Conditions the water without the use of salt
- Designed to last
- Choose the shower setting you prefer

Product Information

Item Code

#1383 PiMag Ultra Shower System

#13831 PiMag Ultra Shower System Replacement Filter

Certifications

NSF is a world leader in product testing and certification. The PiMag Ultra Shower System has been tested and certified by this agency against NSF/ANSI Standard 177 for the reduction of chlorine, with a service life of 22,700 litres.

The PiMag Ultra Shower System is registered and labelled in accordance with the Water Efficiency Labelling Standards (WELS) Scheme for the most efficient rating of 3 Stars. Independent testing showed usage of 7.7 L/min which is at the lower end of the 3 Star usage range of 7.5 but not more than 9 L/min.

The PiMag Ultra Shower System complies with performance standards for Showers AS/NZS 6400.

Featured Technology

Advanced Water Filtration and PiMag Technology.

Recommended Filter Cartridge Replacement

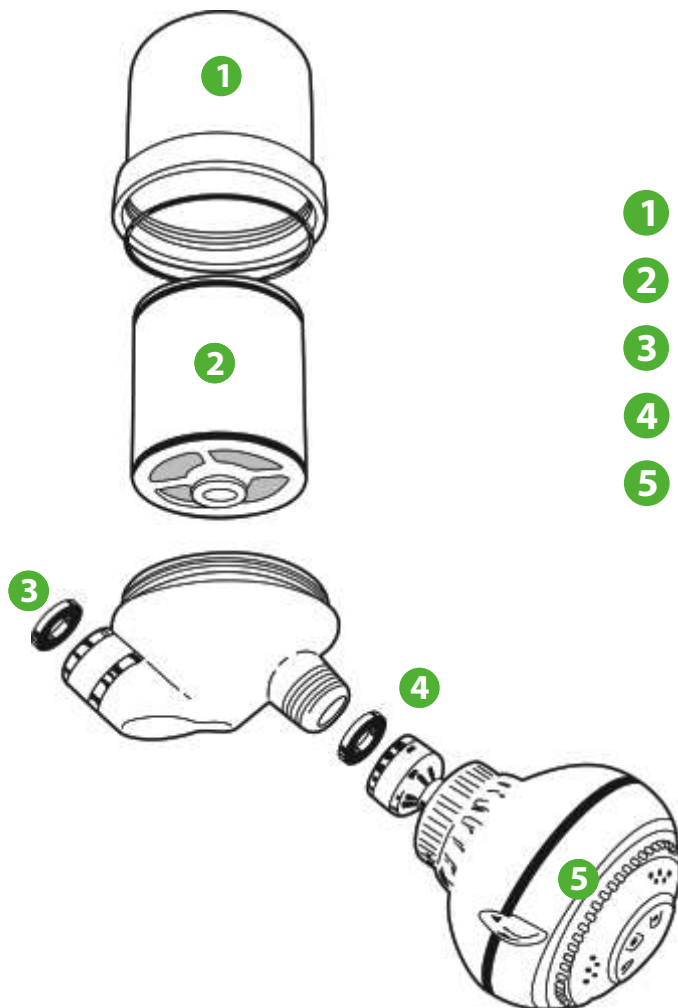

For optimal results, the Filter Cartridge (item #13831) should be replaced every six months, or more often depending on condition of water.

Installation

The PiMag Ultra Shower System can be installed by the owner in accordance with directions in the Operating Manual. Depending on existing shower fittings, it may be necessary to visit a bathroom renovation plumbing supplier for appropriate gooseneck and/or other fittings to complete the installation.

Warranty

The PiMag Ultra Shower System is covered by a 90 day warranty from date of purchase against faulty materials and workmanship under normal use. This warranty does not cover misuse, negligent handling and/or installation, and damage caused by attempted repair. The filter cartridge and replacement filter cartridges are excluded from the warranty.

- 1 Filter housing
- 2 Replaceable filter cartridge
- 3 Washer
- 4 Gasket
- 5 Showerhead
