

# PiMag<sup>®</sup> Optimizer II

Quick Reference Sheet

## PiMag Optimizer II

The PiMag Optimizer II takes PiMag water to a whole new level of excellence as if it had just cascaded over the rocks and pebbles of a mountain stream.

### The Facts

- The PiMag Optimizer II is not a water purifier. That's the job of your PiMag Water Fountain or PiMag Water System.
- The Optimizer II adds oxygen and breaks down the size of water molecules to increase its bio-availability to the body.
- Water quality is further enhanced by circulation through a ring of pi-ceramic material and a complex magnetic field.
- A vortex or cyclone pattern created by the product's unique design, oxygenates the water during the optimizing cycle for enhanced performance.
- A special rotor sitting at the base of the machine is activated by a rotating 3,500 gauss magnet inside the motor housing. This action passes water through complex magnetic fields during the programmed operation.
- The Optimizer II Pi Ring is filled with pi-ceramic materials consisting of calcium carbonate and other minerals to help normalise pH, enhance mineral composition, and introduce far-infrared energy to improve the bio-availability of the water.
- A pair of strong 4,400 gauss magnets positioned with opposing polarity within the motor housing, revolve rapidly to create a complex magnetic field.
- The PiMag Optimizer II contains a digital read-out panel that measures the nine minute optimizing cycle time. It also measures the total number of hours of use to indicate when it is time to change the Pi Ring. The Pi Ring should be changed once a year or after 200 hours of use, whichever comes first.

### Features

- **Patented technology**
- **Vortex pattern**
- **Rotor**
- **Optimizer II Pi Ring**
- **2 x 4,400 gauss magnets**
- **Digital read-out panel**
- **Full 2 litre capacity**

### Benefits

- Reduces the size of clusters of water molecules to improve the water's bio-availability to the body
- Oxygenates the water for enhanced performance
- Spins rapidly under magnetic power to agitate the water at high speed
- Contains pi-ceramics to help normalise pH and introduce far-infrared energy
- Create a complex magnetic field to energise the water
- Sets optimizing cycle and measures hours of use to indicate when it is time to change the Pi Ring
- Ideal quantity for immediate use or storage

## Product Information

### Item Code

# 1359 PiMag Optimizer II

# 1358 PiMag Optimizer II Replacement Ring

### Featured Technology

PiMag Optimized Water Technology

### Specifications

Electric power 230 volts 50/60 Hz 17 W

#### Dimensions

Base 20 x 14.5 x 33.5 cm

Pitcher 19 x 12.5 x 25.5 cm

Weight 2.1 kg

Capacity 2 litres

Optimizing Cycle 9 minutes

### Care Instructions

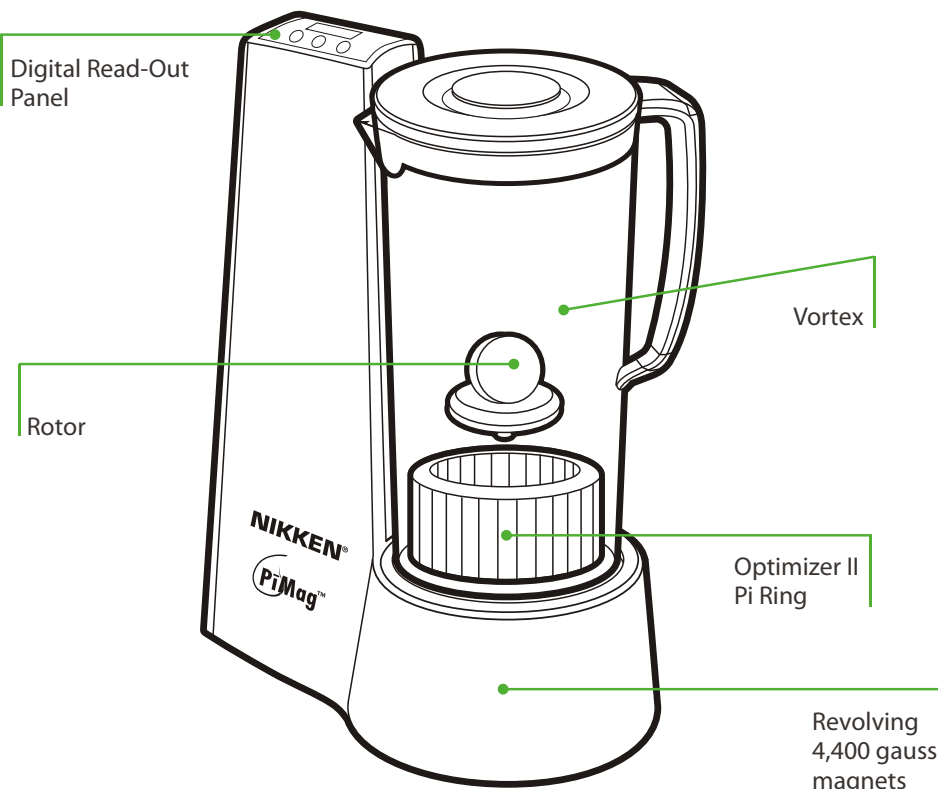

Refer to Product Information Guide that comes with unit for important safety and care instructions.

## Hints & Tips

- The PiMag Optimizer II is not a water purifier or filter. Best results are achieved using PiMag water.
- Refrigeration of optimized water for up to 48 hours helps preserve its freshness. It is also suitable to use and store the Optimizer pitcher with the Pi Ring in place in the refrigerator for convenience.
- Never add anything to water in the Optimizer pitcher as this will affect the Pi Ring. Transfer the optimized water to another container and then add flavourings according to your taste. Popular flavourings include honey, evaporated milk, lemon juice, and green tea. Feel free to experiment.
- Nearly any container can be used to store the water, however metal containers including stainless steel and aluminium are not recommended. The sturdy PiMag Carry Mate is a handy way to enjoy refreshing PiMag optimized whatever the situation - work, school, gym, while traveling or simply at leisure.

## Warranty Information

The PiMag Optimizer II is covered by a 12 months warranty from date of purchase against faulty materials and workmanship under normal use. This warranty does not cover misuse, negligent handling, or damage caused by attempted repair, or the Optimizer II Replacement Ring.

### Safety Information

- The PiMag Optimizer II has been tested by Testing & Certification Australia and complies with all appropriate Australian and New Zealand electrical safety standards.
- Make sure you read all care and safety information contained in the Operating Manual supplied with the PiMag Optimizer II. Only fill with microbiologically safe drinking water (treated public water supply).
- Nikken Wellness has no information that the water supply in your area has any water problems implied or referred to in this brochure or other communication materials.
